

ANTHONY AKPOVIRE

Lagos, Nigeria | +234 916 001 7869 | aakpovire@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data-literate professional with a track record of turning business and user needs into requirements that hold up under delivery — user stories, PRDs, and acceptance criteria across e-commerce, payments, and enterprise fintech contexts. Experienced in extracting requirements from senior stakeholders and using metrics and MoSCoW prioritization to drive measurable outcomes. IBM Data Fundamentals certified.

CORE COMPETENCIES

Requirements Gathering • User Stories & Acceptance Criteria • PRD & Backlog Management • MoSCoW Prioritization • Data Analysis & Metrics • Stakeholder Discovery • Process & Compliance Analysis • Jira, Trello, Notion, Miro

KEY ACHIEVEMENTS

Business Development Executive | *Excellium* — Lagos, Nigeria

September 2025 – Present

- Extracted actionable business requirements from CEO/CFO/IT-level discovery sessions that directly shaped solution scoping for accounting, payments, and compliance workflows.
- Shaped the winning evaluation framework (pricing, integration, compliance, SLAs) for an RFP response to the Lagos State Ministry of Health.
- Built and progressed a full-cycle pipeline — prospecting through close — for ERP/fintech-adjacent solutions spanning Microsoft Dynamics 365 Business Central, Sage 300, and Zoho Books.
- Kept client onboarding on schedule by aligning solution scope and feasibility across implementation, finance, and technical teams.

Associate Product Manager | *Vendsr* — Lagos, Nigeria

June 2025 – August 2025

- Shipped a full e-commerce/payments MVP — store creation, Paystack-integrated payments, and escrow — on schedule within a 12-week, 6-sprint Agile cycle.
- Built the merchant onboarding and verification flow (CAC-based) that passed user testing and became the compliance-safe entry point for the platform.
- Established the product metrics and feedback framework used to track post-launch progress against MVP targets of 100 merchants, 500 customers, and 50+ launch-phase orders.
- Converted business and user needs into user stories and acceptance criteria that kept the full sprint cycle on scope with no major rework.

Product Management Intern | *Betechified* — Lagos, Nigeria

June 2024 – April 2025

- Delivered measurable UI/UX improvements across multiple product pages by running structured testing and turning results into prioritized fixes.
- Cut design-to-engineering rework by producing PRDs and wireframes with clear, testable acceptance criteria.
- Kept the development backlog matched to real user needs by converting discovery and feedback sessions directly into prioritized user stories.

SELECTED PROJECTS

UrbanCart (PRD) — Authored the full PRD for UrbanCart, a mobile-first e-commerce platform for Nigerian SMEs — defining the problem statement, objectives, and a measurable success framework (100 merchant registrations, ≥70% activation, ≥75 transactions, ≥95% payment success rate) for a 12-week MVP built on Paystack-secured payments and CAC-verified merchant onboarding.

Amazon Autos — Defined MVP scope for a digital-first car-buying platform through a 24-month roadmap and PRD, using MoSCoW prioritization, user interviews, and market research.

OPUS by Chorus One (Case Study) — Identified the adoption barriers and market gaps behind a multi-chain staking/fintech platform's growth ceiling and translated findings into actionable product recommendations.

EDUCATION & CERTIFICATIONS

B.Sc. Building — University of Lagos, Nigeria (2016 – 2023)

Certifications: Certified Associate in Project Management (CAPM); IBM Data Fundamentals; Product Management (Axia Africa); Business Development (Saylor Academy); Software Engineering — CS302 (Saylor Academy); Digital Marketing (HubSpot Academy); Email Marketing (HubSpot)
